

1
To get answers to crucial questions concerning emerging new circular economy markets and contact with manufacturers and service providers working in those areas.

2
To meet Market leaders, small and medium-sized enterprises, and visionary start-ups, associations and municipal suppliers and disposal companies.

5 REASONS TO PARTICIPATE IN ECOMONDO 2016:

5
To enter the Euro Mediterranean market place joined by exhibitors providing innovate products and services and industry professionals and to make promising new business.

4
To approach strategies and new solutions for implementing Green and Circular Economy in the main industrial sectors and in the Cities.

3
Take advantage of ECOMONDO 2016 in order to secure a promising future for your company within the advanced environmental technology market.

A specific focus of Ecomondo 2016 will be the **Circular Economy Package** launched by the European Commission's on December 2, 2015 and on its implications for R&I and policy/regulation in the sectors involved.

The implementation of **Circular Economy Package** will be assisted in Europe by over €650 million launched for sustaining R&I under Horizon 2020 and €5.5 billion for integrated measures allocated under the structural funds.

ARRIVING AT RIMINI EXPO CENTRE IS PRACTICAL AND EASY WHEREVER YOU COME FROM

BY PLANE
Bologna Airport (120 km away from the Rimini exhibition district)
WITH SHUTTLE SERVICE UPON RESERVATION
(infovisitatori@riminifera.it - Tel. +39 0541 744 266)
www.bologna-airport.it
Ancona Airport (90 km away) www.ancona-airport.com
Milano Linate and Milano Malpensa Airports
(350 km and 400 km away) www.sea-aeroportoimilano.it
Roma Fiumicino Airport www.adr.it/fiumicino
(306 km away) High speed railway line with Italo or Trenitalia

BY RAIL
RiminiFiera railway station inside the exhibition district, on the Milano-Bari line; during trade fairs, **16 daily trains**, both North- and South-bound, stop in front of the main entrance of the fair:
www.riminifera.it/stazione; www.trenitalia.it

BY CAR
A14 Motorway, Rimini Nord or Rimini Sud exits, www.autostrade.it
Calculate the quickest route: www.riminifera.it/come_raggiungerci.html
Satellite co-ordinates: 44.06902, 12.52648

ECOMONDO
THE GREEN TECHNOLOGIES EXPO

GREEN & CIRCULAR ECONOMY

TUESDAY 08th - FRIDAY 11th NOVEMBER 2016 RIMINI ITALY

20th INTERNATIONAL TRADE FAIR OF MATERIAL & ENERGY RECOVERY AND SUSTAINABLE DEVELOPMENT

Organized by **RiminiFiera** business space

Contemporary with **KEY ENERGY**

With the patronage of **Regione Emilia Romagna**

www.ecomondo.com

ECOMONDO/KEYENERGY

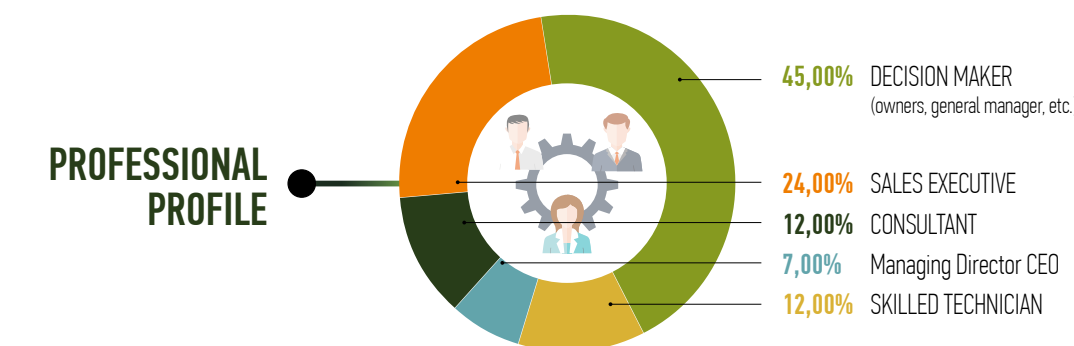

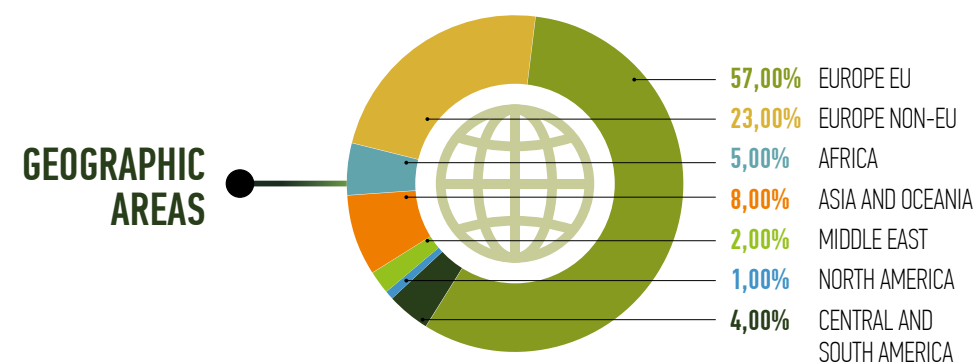

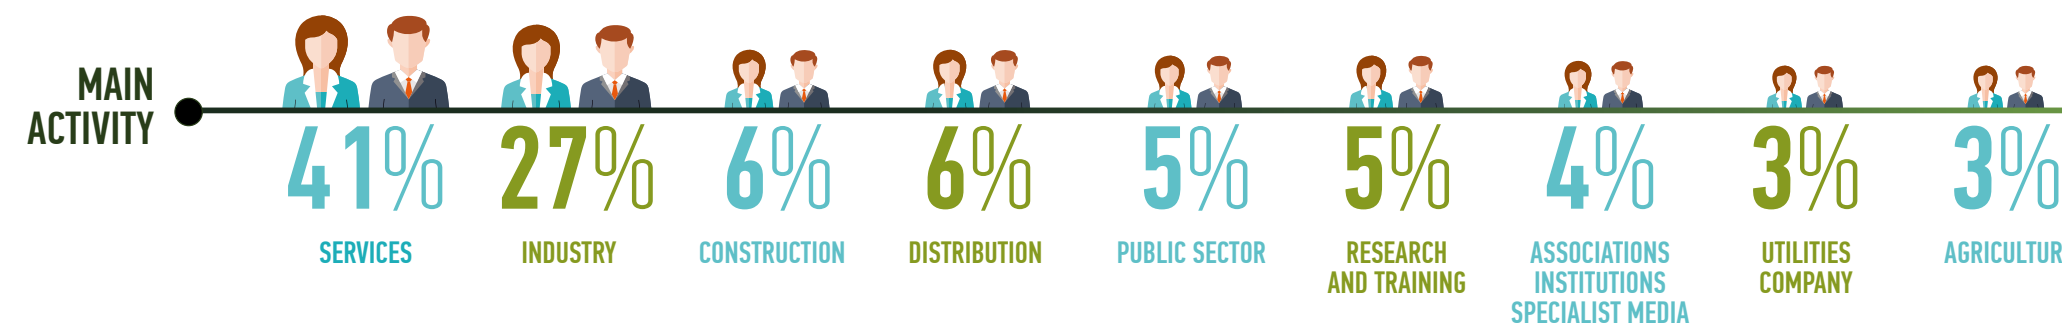

THE BEST SOLUTIONS TO THE FOLLOWING CRITICAL ISSUES

- How to recover and make the best use of discarded paper, cardboard, rubber, wood, cells and batteries, plastics and metals, generating business, transforming them into chemical compounds, materials and energy with new market opportunities while protecting the environment;
- How to transform by-products, waste and agricultural residues, as well as the organic component of industrial, agricultural and urban waste into biobased chemicals, materials and fuels;
- How to recover valuable minerals and metals from scrap and waste from heavy industries, iron and steel, for reentry into the production cycle;
- Advanced technologies for anaerobic digestion, rural production of biogas, biomethane, digestate and compost;
- How to sustainably treat waste water, with the recovery of nutrients (to produce biogas and other products) and water for civil, irrigation and industrial reuse and nutrients ;
- How to manage water in countries with problems of drought;
- How to sustainably reclaim sites contaminated by (chlorinated) hydrocarbons or asbestos and their reuse for civil (construction) or industrial purposes, or even to produce biobased products and/or clean energy;
- How to decontaminate and make greener ports and marine sites;
- Air purification systems (alarms: asbestos, thallium, arsenic, legionella);
- Technologies for energy efficiency: applications both in industrial and urban sector;
- Renewable energy technologies: focus Wind Energy.

THE PRINCIPAL TECHNOLOGIES AND EQUIPMENTS THAT YOU CAN SEE AND BUY AT ECOMONDO

- WASTE & RESOURCE**
Waste collection, transport and street cleaning
Waste treatment and disposal - technologies
Recycling/recovery of matter and energy
Integrated waste management
C&d waste: treatment and recovery
Polluted site reclamation
- BIOBASED INDUSTRY**
Integrated biorefineries and green and sustainable chemistry
Anaerobic digestion technologies chain (biogas and biofuels)
- WATER**
Wastewater lifting, transport and storage
Water and wastewater treatment
Treatment of industrial and artisan wastewater
Water recycling, recovery and re-use
Integrated water management services
- AIR**
Technology & devices for air purification
- SITE REMEDIATION**
Land reclamation: plants and equipments
Evaluation and monitoring contaminated sites
- ENERGY**
Sustainable construction
Energy efficiency in industry
Cogeneration
Heat processing, ORC technologies
Renewable energies: focus wind
- MOBILITY & COMMUNITIES**
Sustainable mobility
Smart cities
